Adding Traffic Counts to AWM

07/08/2026 1:50 pm +10

Below are some supporting links to aid in the process of adding traffic counts into AWM.

AWM Notes and Assumptions	Indicative (draft) Data Dictionary	Other Supporting Links
AWM has a MetroCount import tool. There are supporting configuration files available to help export data from the MetroCount application in a AWM compatible format. The second link included on the right is a MetroCount support page discussing the process from a MetroCount perspective.	*(RAMM compatible import file to be generated from MetroCount software)*	MetroCount support page for RAMM RIMS Traffic Counting Guide Supplement
