

## Has Viable Detour

10/06/2025 12:50 pm +10

|            |  |
|------------|--|
| AWM Table: | Bridges, Causeway, Major Culvert, Tunnel, Wet Crossing   |
| Attribute: | Has Viable Detour  |
| Purpose:   | To support effective planning, communication, and decision-making during road closures by clearly identifying whether a safe and usable detour is available. |

| Value   | Description  | Photo Example |
|---------|--|---------------|
| Yes     | A temporary route exists that directs traffic away from a closed or blocked road section so vehicles can reach their destination using a different path. |               |
| No      | The road is closed, and no alternate route has been set up to redirect traffic.  |               |
| Unknown | It is unknown if there is an alternative detour route.   |               |
